## **DECENDIENTEN I FAMILIAN "RAMAS DE MANUEL SABLAN"**

*This group of marchers are the proud descendants of one of two immigrant brothers who arrived on Guam in the early 1800's, circa 1825. The two brothers, JUAN and MANUEL ZABLAN came to Guam, as part of the Spanish Armada who traveled through the Pacific Ocean. They were recorded as being Army officers of French-Malaysian descent. Both brothers married Chamorro women of Spanish descent, giving Guam an island-full of Sablan offsprings.*

*The name, originally "Zablan", was changed to the present day spelling, presumably by the Spanish Gov't., as the alphabet "Z" is non-existent in the Spanish language. The Sablans received knighthood from the Spanish Crown for their success and superiority as merchants, entrepreneurs and warriors at sea.*

*Over the 170 generation years since the two Sablan brothers arrived, the Sablan clan on Guam has long been noted for its members' social-political activism and community contribution, as exemplified by the works of: Dr. Ramon Sablan, composer of the "Guam Hymn"; Rudy Sablan, Lieutenant Governor of Guam; Dr. Joaquin Sablan Ph.D., Reverend Pastor, and well known leader in the field of education; James T. Sablan, Senator and Public Safety Director; Johnny G. Sablan, singer and composer of Chamorro songs, and many others too numerous to mention.*

*In both Government and Religious sectors of Guam, the Sablan's have been loyal citizens (many male & female offsprings have made careers in the U.S. Armed Forces) and have given of their talents and themselves in helping to make Guam a true paradise to live in.*

*The Manuel clan boasts to having the strongest man in civil politics, on their side, Congressman ROBERT A. UNDERWOOD, while the Juan clan reminds them that they have on their side, a strength of a different kind, the Archbishop of Guam, ANTHONY SABLAN APURON. (humor)*

*Today, the Sablans join this parade to walk on behalf of their Fathers, Grandfathers, Sisters and Brothers whom have lost their lives in the efforts of keeping peace and retaining the much valued freedom, lest we forget.*

*The group today is being led by JESUS P. SABLAN, author, editor and publisher of the Ramas De Manuel Sablan Family Tree and EMILY SABLAN TOVES, one the researchers of the family history and overall chairperson for the Family Reunion.*

Message from distributor:

The origin of the "Ramas De Manuel Sablan" genealogy was prepared by someone unknown to me. I originally received only 16 pages. I noticed that only few Sablans were listed which inspired me to take it on my own accord to upgrade the listing and presently I am distributing them at no cost. Free distribution will cease at the end of my upgrading tenure. Anyone desiring a copy thereafter may XEROX copies from my "Master Copy" upon request.

The information I added were obtained by interviewing those whom I was able to contact and from some reliable sources. It is up to each of us to provide the correct information. Please report to me any necessary corrections as soon as possible either in writing or by telephone. In addition, those who are interested in having their family included are asked to provide the necessary information.

For upgrading purposes, changes and or additions will be provided each recipient distributed by me for correction and/or addition as they become available.

Please be informed, that the intention of the listing is to provide information on the genealogy of "Ramas de Manuel Sablan" to those interested. In addition, it is my sincere hope that it will bring closer together to reveal and inspire the spirit of togetherness the Sablans were known to have once possessed.

CHANGE #3-A

Third and final message from distributor:

I would like to thank those who unselfishly and willingly gave information. My admiration to Mr. Anthony Ramirez the known originator of the research of the SABLAN genealogy. A special thank you to cousins Joaquin Cruz Guzman (Toa), Emily Guerrero Sablan-Torres, Joe Apuron and especially Mrs. Virginia Pangelinan Perez (Kotla) an 83 year old resident of Santa Rita. Without their unselfish support and tenacious input, I would not have been able to accomplish much.

I salute those who willingly gave information. I extend my love and respect to those whom I've contacted and not able to provide information possibly because of lackadaisical or does not care attitude. I regret to say that their failures are their losses.

I will continue to provide changes and additions throughout this month depending on information received. Once again, I would like to stress the importance of error and/or correction reporting. Please do not hesitate to let me know.

Those not listed and would want to be included and/or those who would like to have additional family added are ask to contact me at the earliest opportunity.

Sincerely,

Revised 30 Sep. 1992

Exemplification/explanation of nickname:

As we very<sup>well</sup> know that in Guam there are many whose first and last name are identical and the locals originated nickname for none other than identification purpose. In short, it exemplifies the identification of a family. The intention should not be interpreted or catagorize any other way. It should be honored and respected.

I would exemplify how the nickname originated on some of my grandfather's children. My father, Joaquin Castro Sablan, was blessed with blond hair and white (not albino) complexion. His fellow co-workers referred to him as German because he looked more caucasian than any thing else. Pre-World War TWO locals were very poor in English pronunciation and his given nickname of German eventually and everlastingly ended "Jaman".

The family was offended by the nickname much more so because of ignorance of its applicability - the intention of its entirety. (Sad to mention that they all succumbs. May they rest in peace). I now understand the reasoning and wholeheartedly accepted "Jaman".

My father's sister, Carmen Castro Sablan, was nick named "Gae" which was the abbreviated form for her husband's name Miguel. It sim-ilarily exemplifies the nickname of uncle Enrique Castro Sablan who was married to Nicolasa Camacho Santos. Instead of being called Enriquen Nicolasa, Nicolasa was shortened to "Colasa" thereby "Enrique Colasa" was derived.

The nick name of "Dongat" was explained to me by one family member, auntie Maria Sablan Damian of Sinajana. Because of her grandmother's bright blue eyes, "Dongat" came into existence.

Words of wisdom - I just got through talking on the telephone to her son, Joseph. I asked if he is offended by the nickname "Dongat" and he abruptly replied "not at all because even with the power outgages we have been experiencing, night outgages doesn't darken our house because we are Dongats". That my brothers and sisters is an example of maturity; austerity in affirmation; the acceptance of truth. Any Dongat" offended? The reasoning of truth must be accepted.

For information, whether we like it or not, the originated nickname we inherited cannot be erased. It might not now be acceptable to some of us, but the bottom line is, it was there then and here now to forever be known as such.

Sincerely,

Chu/Mamaling Sablan

Message from distributor:

It always has been my contention that one of the major responsibility in the upbringing of children is for parents to inform them of their relatives. But how could the parents extend such responsibility when they themselves are not knowledgeable of who their relatives are. Ignorance in this regards my brothers and sisters is not a valid excuse. It is unassailably harmful and inappropriate in its entirety. There is no substitute for truth. It is no wonder that the majority of the present generation are more attune to friends-connection instead of their relatives. To put it frankly, it was ignorance of the facts. The parents are at fault.

During my research episode, I was informed by some parents that my research could amount to nil or should I say a worthless cause because children of today are more attune to friends-connection.

It is my sincere believe that the cycle of friends-connection would reverse to relatives first before anyone else. It will not happen overnight but will gradually incite acceleration to progress and eventually become a reality. When the above is acheived, the complacency will epitomize the lineage relationship.

There is nothing wrong with having friends. In fact we humans should all be friends. It is in God's commandment to "Love Thy Neighbor as Thyself". But the utmost importance of family/relatives relationship must not be ignored because it is the essential ingredient to unity, the sanction that represents faith, love, hope and respect - the affirmation of lineage survival.

Working on a "Family Tree" (family roots) takes a lot of work, time and patience. I found it very interesting and enjoyed it so much. It is indeed an intriguing experience.

Some of the information contained in the document was obtained from the University of Guam Micronesia Area Research Center. The majority, however, were provided by family members living on Guam and by family representatives on the few who are residing in the mainland. Any error or mistake is unintentional and I beg the pardon of those affected.

Note: Practically all "birth dates" showing only the "year" were obtained from MARC and are specified as "circa" year.

Sincerely,

Chu/Mamaling Sablan  
"Jaman"

TRIBUTE TO FINALE

1 October 1992  
Guam, M.I.

For information, not all of "Ramas de Manuel Sablan" lineage is in the document. It is regretably impossible to include everyone for the simple reason that there were those who were reluctant to give information, those who were willing but not able due to lack of family expertise and those residing outside of Guam who I had no contact or connection with.

I've stressed in some of my messages that those not listed but who want to be included, should provide the necessary information. I knew that there were some residing on and off island, who after seeing someone else's copy have asked "why they are not included". But they have not given information as requested.

Although I am ending my research, I'll wholeheartedly accept late submissions for inclusion as an addendum.

Due to personal funds limitation, I am not providing any more free copies. However, anyone wishing to have a copy may use my "Master copy" for xeroxing at their own expense.

It is proper to mention that I knew from the beginning that it would be impossible to include all "Ramas de Manuel Sablan" lineage and extended descendants. But I can say with confidence that in this endeavor, I garnered approximately eighty percent (80%) of our lineage. I hope and pray that someone in the near future will garner the courage to continue the research and eventually end up publishing a book.

In closing and as final tribute, I again would like to express my love and respect to all, and I salute those who willingly gave information. Thank you and "si Yuus ma'ase".

Sincerely,

Jesus Perez Sablan

Dear Mr. Sablan,

On behalf of our Director, Faculty and Staff, I wish to thank you so much for your donation of a copy of your book, *Ramas de Manuel Sablan* to the Pacific Collection here at the Micronesian Area Research Center (MARC).

This material is most certainly a worthy addition to the Guam genealogy collection here at MARC. It will provide valuable references to many of our patrons who are researching their family tree.

Incidentally, we are happy to know that our Guam genealogy collection was a help to you when you were conducting research for your book.

Again, thank you for your contribution, and May You Have A Prosperous New Year.

Cordially,

## SMILE

"Nothing on earth can smile but man. Gems may flash reflected light, but what is a diamond flash compared to the flash of mirth?"

Flowers cannot smile. Smiling is a charm that even they cannot claim. It is the prerogative of man.

A face that cannot smile is like a bud that cannot blossom and dries up on the stalk.

A smile is the twilight that hovers gently between day and night – more bewitching than either."

"HUMOR IS TO LIFE WHAT SHOCK ABSORBERS ARE TO AUTOMOBILES."
